Critiquing Habermas, this volume bring fresh perspectives and ideas to bear on debates about the public sphere. Engages in different ways with Jrgen Habermass seminal study, *The Structural Transformation of the Public Sphere*. Moves beyond Habermas by reflecting on current social processes and events, such as anti-corporate protests and the emergence of the Internet. Considers alternative theories by Bakhtin, Bourdieu and Honneth, among others. Combines work by established commentators and new researchers.
