Save the Indians of BrazilBy Ted EstradaThis little volume should be on the "must read" list for anyone who believes that everything is fine in the world. The native inhabitants of the once-pristine rain forest, are being drive to extinction. Corrupt government officials collude with ranchers, loggers and miners who daily destroy thousands of acres of forest, burning villages, decimating the native peoples who are disappearing. There were once over two thousand native tribes; today there are less than three hundred. Disinherited Indians of Brazil sheds light on the inhuman treatment of gentle, innocent men, women and children of the rain forest,

where they have lived for millenia. Looked everywhere, and found it only on . Thanks! Ted Estrada
