What this country needs By AG\_man People like Judge Judy is what this country needs and hopefully will have in the court system for the next few generations. I actually had to stop reading this book because it was sickening me and making me angry the dysfunctional families, welfare and child abuse, and criminals getting away with so much. 0 of 0 people found the following review helpful. study in cases By Customer this is not what i had hoped for. this is just some of her cases. i was waiting for some humor, oh well

n we get some reality in here? sks Judy Sheindlin, former supervising judge for Manhattan Family Court. For twentyfour years she has laid down the law as she understands it: If you want to eat, you have to work. If you have children, you'd better support them. If you break the law, you have to pay. If you tap the public purse, you'd better be accountable. Now she abandons all judicial restraint in a scathing critique of the system filled with realistic hardnosed alternatives to our bloated welfare bureaucracy and our softoncrime laws.
