Christopher Bovis : EC Public Procurement: Case Law and Regulation before purchasing it in order to gage whether or not it would be worth my time, and all praised EC Public Procurement: Case Law and Regulation:

Public procurement represents a specialist yet important area of practice in the European and international business and commercial legal environment. This book offers an inclusive, coherent and practical analysis of the relevant law

and jurisprudence, with the principal focus on the case law of the European Court of Justice in the public procurement field. The author provides the reader with a taxonomy of the themes and reasoning that has been used by the Court, and a convenient conceptual framework for practitioners and academics alike.
