The content is what you would expect from a commercial outline. It's well organized, contains helpful examples/charts, and the casebook correlation chart is particularly useful if you consistently use this as a supplement to assigned textbook readings. Biggest problem: the first letter on the lefthand side of the "page" is often cut off when viewing either on my kindle or on the kindle app for PC. The format is fine in 's cloud reader, but the cloud reader does not yet have a "search"/"find" function.
