Edition. The publisher New Jersey Law Journal has a long list of valuable law books that can aid in practical litigation, are well written and easy to understand and use. Here now is the new edition of the classic by John J. Bannan on New Jersey Causes of Action. The beauty of this work is a combination of its accessibility, short monographs with detailed authority and vast listing of Causes of Action encompassing large areas of law. This one volume paperback of 1123 pages is comfortable to handle and use on a regular basis. It should be on your desk and not just the library shelf. If you are like me and love reading take it to bed with you and let your mind roam the halls of legal research and imagination. Apparently the author has read all State Court decision published from 1947 and all Chapters of New Jersey Statutes. The Table of Contents, Index, Table of Statutes and Table of Cases combined with the easy to use page headings make this book a pleasure to use. I have used this book for many years and highly value it. That are way too many Causes of Action to discuss but I wish to point out some of those that you may not have known existed or are quite useful and common to consider. "Doctors Failure to Aid Patients Lawsuit" a very interesting and useful claim; "Personality Provided Creating Hazard" (fortunately Banner cites the Sikora case which brings some sanity to this claim) ; Employer Improperly Handling Employee Wages (self-explanatory); Employer Penalizing Employee On Jury Duty (self-explanatory); Tenant Unlawfully Evicted (self-explanatory); Irrational Act By Employee Damaging Employer (self-explanatory); Fraudulent Resume Injuring Employer (all too common); and on and on and on. For those not educated in the law this book can provide a great introduction to the concept of Torts and obtaining Justice for an injury you believe was done to you. Whether you are proceeding pro se on your own case or an attorney seeking a very powerful handbook or a client wanting to understand his case to better direct his attorney, this is the book for you. Other editions are apparently available for some other jurisdictions outside of New Jersey by the same Publisher. This would be an excellent book in a beginning New Jersey law class to understand Torts and seeking redress for a wrong. Let me know what you think! Kenneth Ellman, email:ke@kennethellman.com, Box 18, Newton, New Jersey 07860

For more than a decade, New Jersey attorneys have consulted the Encyclopedia of New Jersey Causes of Action to evaluate all possible theories of recovery for fact patterns their clients present. The essential elements of more than 650 causes of action are laid out and traced to the leading case or statutory section. It also has an extensive compendium of the requisites for recovering attorneys fees. There is nothing like it presently available to New Jersey practitioners. Encyclopedia of New Jersey Causes of Action is a quick desk reference to unfamiliar subjects and a starting point for analysis of any new matter. This is a welcome resource for firms without an extensive library. The author read all published state court decisions from 1947 through the present and all chapters of the state code to compile the essential elements and leading causes for all theories of recovery. NEW! The 2017 edition includes new and updated Causes of Action, including those specific to: The newly-passed NJ Uniform Trust Code Dementia patient rights Police officer privacy False liens against public employees Injuries to foster children

About the Author John J. Bannan John J. Bannan is a civil litigator with the law firm of Reynolds Horn, P.C. in Marlton, New Jersey, where he concentrates on medical malpractice and civil rights defense, including state and federal appellate matters. He graduated in 1991 with a Bachelor's of Business Administration from the University of Notre Dame and in 1994 with honors from Rutgers School of Law--Camden, where he edited articles for the Rutgers Law Journal. He clerked for the late Hon. Raymond F. Drozdowski in the Superior Court in Camden. He is a member of the University of Notre Dame Monogram Club earned for service as a football manager on the 1988 National Championship Football Team under Head Coach Lou Holtz. He is a lifelong resident of Southern New Jersey, where he resides with his wife, Maria Saveria Bilotti, Esq., and their four children, Jack, Angela, Julia and Nicholas.
