Dan Mason : Equitable Local Governance before purchasing it in order to gage whether or not it would be worth my time, and all praised Equitable Local Governance:

A blistering exposition on the failed drug war policies that has lead to government negligence and malfeasance. The growing prison population and bisexual activity of many Americans is a direct result of this policy of denial. The continuation of this policy is due to bad politics and pork barrel budgets. America's denial of this failed policy threatens the very Republic.
