Arthur Hartkamp : European Law and National Private Law: Effect of EU Law and European Human Rights Law on Legal Relationships between Individuals (2nd Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised European Law and National Private Law: Effect of EU Law and

European Human Rights Law on Legal Relationships between Individuals (2nd Edition):

Traditionally European law is important for public law. However, it is also increasingly important for private law, that is to say, the legal relationships between individuals. Instead of discussing the impact of European law as part of a certain legal subject, this book addresses and analyzes the various sources of European law in (hierarchical) order, namely the Treaty on the Functioning of the European Union, the general principles of EU law, EU Directives and EU Regulations, as well as the influence of the European Convention on Human Rights. The nature of each source of law and its significance for and influence on the general part of national private law is discussed. Particular attention is devoted to the review of national private law legislation in the light of European legislation that has a direct and indirect effect of European law on legal relationships between individuals, ex officio application of European law by the national courts, and interpretation issues arising as a result of the interaction between European law and national law. Further, comparisons are drawn between the different sources of law. The book then concludes with a detailed overview of European Directives that are of particular relevance for general private law. European Law and National Private Law provides a concise introduction to the influence of EU law and the ECHR on legal relationships between individuals. This is a must read for every lawyer. [Subject: European Law, Private Law, Human Rights Law]
