Nolo press writes the best Pro-per books available for the laymanBy MaverickIn general, Nolo press writes the best Pro-per books available for the layman. I've been using them for over thirty years, still do, and have a complete library of their publications. For Anybody Who Lives In CaliforniaBy Claudia StrasbaughThis book is a tad behind most small claims courts of larger cities, yet still a money saving info manual. Small towns where courts operate on last year's basis or even further back, fit into what can be learned here just fine.The state of California has more attorney's then the entire country of England. Sue is what lawyers do, in all our courts.So whether you find yourself angry at someone, having been wronged, financially damaged, or on the defense end of conflict, unless you put a year or two into law school yourself, this book is a safety

belt for daily living. Claudia Strasbaugh 1 of 1 people found the following review helpful. I don't know what I was expecting. By Haley Sue I guess I wanted more detail. It basically tells you what most people would already know. There's no hidden clues that you can't already pull up on the web. The only reason to buy it would be if you're someone who wants to sit in a chair to learn the basics instead of asking questions or reading online. I think it is a little pricey considering content. It's okay. But if I'd had a chance to review it in a bookstore, I wouldn't have bought it.
