**From LexisNexis : Federal Courts: Cases and Materials on Judicial Federalism and the Lawyering Process**  
before purchasing it in order to gage whether or not it would be worth my time, and all praised Federal Courts: Cases and Materials on Judicial Federalism and the Lawyering Process:

3 of 3 people found the following review helpful. No Page Numbers!By SolipsistThis is a textbook. Professors are going to assign particular pages from the book and jump around from chapter to chapter without much regard for the authors' intended ordering. To not be able to find a particular page is incredibly unhelpful. It is incredibly unhelpful and I wish I could return this and just buy the more expensive hard copy. really, really disappointing.0 of 2 people found the following review helpful. Falling Apart!!!!!!By EmilyI had to tape the book back together as soon as I received it! The only reason I didn't ask for a refund was that school has started. The resale value on this book is ZERO!0 of 0 people found the following review helpful. Student-friendlyBy LawStudentThis is one of the best textbooks I have used as a law student. The cases are well-edited, the notes are helpful, and best of all, each section has a complex hypothetical fact pattern to which you can apply the legal theories.

PLEASE NOTE: See my pictures posted above, that's my book. ISBN: 9781422481677. \*\*\*Federal Courts: Cases and Materials on Judicial Federalism and the Lawyering Process, 2010 Supplement\*\*\* 2nd Edition, by Arthur D.

Hellman, Lauren K. Robel, and David R. Stras. 111 Numbered pages. (2010 LexisNexis).
