Mr. Michael P. Allen, Michael Finch, Caprice Roberts : Federal Courts: Context, Cases, and Problems before purchasing it in order to gauge whether or not it would be worth my time, and all praised Federal Courts: Context, Cases, and Problems:

0 of 0 people found the following review helpful. The examples did provide great further thinking points thoughBy KatieI ordered this book for my Federal Jurisdiction class in law school. I found the cases helpful but it could had more descriptions following the cases. The examples did provide great further thinking points though.

pFederal Courts: Context, Cases, and Problems/b features rich pedagogy and well-crafted problem exercises that

support a variety of learning styles and teaching approaches. This casebook breaks down and thoughtfully explores the complexities of Federal Courts doctrine, while offering clear and comprehensive coverage in a manageable length and student-friendly format. /p p **With an innovative take on the problem method, Federal Courts: Context, Cases, and Problems includes:** /p

- ba problem-based approach accessible to students/b** in a frequently challenging subject /li
- bc**omprehensive coverage of major federal courts topics /bthat includes all of the relevant statutes, rules, and constitutional provisions /li
- ba**advanced treatment of topics covered in other courses/b (for example, subject matter jurisdiction and the Erie doctrine) /li
- ba** hypothetical problem at the front of each chapter/b that illustrates many of the important issues addressed in the chapter /li
- ba** principal cases/b that tie into the exposition and illuminate doctrine /li
- bc**lear and concise writing/b that puts doctrinal concepts within students reach without oversimplifying or ignoring the richness and complexity of the Federal Courts doctrine /li
- ba** problems integrated throughout each chapter/b that reinforce and deepen students understanding of doctrine /li
- ba** generous use of charts and diagrams/b to facilitate and support different approaches to learning and teaching /li
- ba** detailed Teachers Manual/b that includes suggestions for presenting each chapter, insights regarding the hypothetical problems, plus additional supporting materials and reference sources /li

 /p **Authors bAllen, Finch, and Roberts/b** explore and reveal the intellectual truths and startling complexities of their subject. You may never go back to teaching Federal Courts the old way again. /p p /p p /p p /p
