By Phillip Taylor MBETHESE QUESTION AND ANSWER TOPICS FOR THE DIFFICULT SUBJECT OF LAND LAW ARE BRILLIANT FOR YOUR FINAL REVISION PROGRAMME! An appreciation by Phillip Taylor MBE and Elizabeth Taylor of Richmond Green

Chambers What Martin Dixon, Gerwyn LL H Griffiths and Emma Lees have produced here is an excellent statement of the main points of study in 10 topic areas for English land law catering for undergraduates looking for a departure from the traditional law texts and revision materials available. As publishers Routledge state, you can always trust the QA series because they will improve your exam technique; allow you to practice essay (narrative) and problem questions and answers; avoid the most common pitfalls and errors; and learn what it takes to raise your grades. The companion website also gives you additional advice and exercises online as well. What the authors set out in this excellent QA book is a formidable explanation of what is readily recognized as one of the hardest legal subjects to follow - English Land Law conducted in easily understandable terms for what is a difficult area of law for many to study (and teach) although it may look superficially easy to some as it is primarily statute based! As with all the Routledge text books, this particular title is one of the best on the market as an introduction to the way in which land law operates in England and Wales and the self-testing which learners can use throughout with the various questions which assist the student with a measure of progress as the QAs develop. We also consider that this book has a much wider potential readership for anyone interested in the development of this topical law area. One of the main reasons why we feel that the Routledge series of legal textbooks to be of outstanding value both in terms of cost and in content is the way in which their authors (all legal experts) explain substantive legal issues in such a readable fashion. For both tutors and students, a decision on which textbook or revision book to use is always difficult but it is clear to us from the feedback we have received from students that the Routledge texts lead the legal field and the QAs are particularly welcome. Many of their titles also have excellent links to websites sometimes marked as companion websites as we have mentioned and they also add much assistance to the hard-pressed learner and is a great additional tool for all. We would also say that the formats used by Routledge for their books are very much of a mainstream formula for legal texts which eases the student into methods of legal reasoning for those just beginning their legal studies and for all undergraduates: they certainly helped us with our preparation so do ensure you look very carefully at all the titles they have on offer! For the QA series do look at the guide to the companion website first to get the study tips and advice and then read the introduction in detail because they deal with important matters such as the length of the answers; common pitfalls; expressing a point of view; and suggestions for exam technique. The QA answer structure is also of high significance when you come to sketch out your answer in the exam hall. So, for us reviewing the book, the companion website is an innovation! Therefore, do look at the features at the beginning of the book which will assist with your learning and engagement with the subject matter. This book covers all the main topic areas on undergraduate and professional law syllabuses and it provides a full understanding of each with supporting resources from the web link given which will give the student an indispensable foundation of understanding of this important area of land law. There is much food for thought throughout this excellent undergraduate QA for its topicality, and on where we are now, and where we are going with current matters involving real property in the 21st century. Thank you Routledge!

Routledge QAs give you the tools to practice and refine your exam technique, showing you how to apply your knowledge to maximum effect in an exam situation. Each book contains up to fifty essay and problem-based questions on the most commonly examined topics, complete with expert guidance and fully worked model answers. These new editions for 2013-2014 will provide you with the skills you need for your exams by: Helping you to be prepared: each title in the series has an introduction presenting carefully tailored advice on how to approach assessment for your subject Showing you what examiners are looking for: each question is annotated with both a short overview on how to approach your answer, as well as footnoted commentary that demonstrate how model answers meet marking criteria Offering pointers on how to gain marks, as well as what common errors could lose them: Aim Higher and Common Pitfalls offer crucial guidance throughout Helping you to understand and remember the law: diagrams for each answer work to illuminate difficult legal principles and provide overviews of how model answers are structured Books in the series are also supported by a Companion Website that offers online essay-writing tutorials, podcasts, bonus QAs and multiple-choice questions to help you focus your revision more effectively.

"These books are brilliant! The QAs sound so similar to our real exam questions.. I would definitely recommend these to all students on the LLB and also for students refreshing their knowledge for the LPC" NEW GRADUATE JUST ABOUT TO START LPC "What a relief! A book I can understand quickly.. Ill be using these this year" SECOND YEAR UNDERGRADUATE "This is an excellent series, which hits the target at a remarkable number of levels. The clarity of its reference points makes it ideal for students new to undergraduate study, while at the same time being the perfect refresher book for students about to start on professional courses. More than that, the series is great as a starter pack for non-specialist students covering elements of law as part of their wider studies, and invaluable for teaching international students studying the English common law from abroad."
