From NOLO : Real Estate Agent's Tax Deduction Guide, The before purchasing it in order to gauge whether or not it would be worth my time, and all praised Real Estate Agent's Tax Deduction Guide, The:

2 of 2 people found the following review helpful. Simple summary - most content is available for freeBy THWhile the book was a decent summary, I thought this book was very basic and didn't add anything to what is freely available on web sites (what I read online just today). And with this in mind, the book was definitely not worth the higher cost for it. Also I was disappointed that the business deductions were not more clear - specifically I was looking for the exact categories to match deductions to in Schedule C (with line numbers) and that was not specifically mentioned.2 of 2 people found the following review helpful. Answered all my questionsBy Richard A. LaryWhile I have been doing my own taxes for over 40 years as a W2 employee, I recently started my own business as a real estate professional. I am also an investment property owner. This book covered all the details I needed to prepare my 2013 taxes as an independent contractor and plan for proper record keeping for 2014. Book also has coverage for other business types,

LLC, Subchapter-S, Corporations (I glossed over those sections). I highly recommend this book and I will purchase the 2014 version next year. 0 of 0 people found the following review helpful. Great resource
By Customer
This is a great book for Real Estate professionals. I have a business/accounting background but wanted to be sure I claimed all the appropriate deductions. This book is thorough and complete. Highly recommend.

The real estate agent's essential guide to tax deductions
Understanding tax deductions can be the difference between having a successful year--or not--for real estate agents and brokers. By taking advantage of the many tax deductions available to them, real estate professionals can end each year with more money in their pockets and less owed to the IRS. Too often, these valuable deductions are overlooked, even though it's easy to take advantage of them once you understand the rules. This book explains all you need to know in plain English with lots of examples and practical information. Learn about the most important deductions and how to plan and track your expenses all year so you avoid problems with the IRS. The information is organized into categories that explain the rules for each type of deduction, including: start-up expenses operating expenses home and outside office health care vehicles and travel entertainment and meals and many more It also explains essentials like depreciation deductions, deducting losses, and keeping proper records. Stephen Fishman is the author of many Nolo tax deduction books, including Tax Deductions for Professionals (winner of the Publishers Marketing Association's Benjamin Franklin Award).
