Steven Emanuel : Real Property (Law in a Flash Ser) before purchasing it in order to gage whether or not it would be worth my time, and all praised Real Property (Law in a Flash Ser):

0 of 0 people found the following review helpful. ehhhh.By OxfordDECAThe cards are really thorough and probably would work well for someone who could memorize a box of hundreds of index cards... but unfortunately it turns out that isn't me. Plus, a lot of the information on the cards, we're relevant to what my professor was teaching, and it was just a hassle to go through all of them to weed out the ones that I needed from the ones I didn't. It was just more time consuming than it was worth. I ended up using a few cards for information that I really had difficulty understanding and learning, in conjunction with my own notes and index cards i ended up making anyways... you're choice if it's for you or not...0 of 0 people found the following review helpful. DouglassThese cards are a great study aid for first year property students. To get a complete review however, also purchase the cards on future interest. These cards are witty and fun, great for helping students remember even the smallest things.

Perfect for the law school student study or general legal knowledge.
