Prepared in cooperation with the National Archives, Ronald Reagan Presidential Library, following a November 2, 2011, symposium. Uses a historical collection of newly declassified documents to tell the fascinating, behind-the-scenes story of US intelligence during the Reagan Administration and the key issues in US-Soviet relations that led to the end of the Cold War, including analysis of Mikhail Gorbachev. Contains many rare photographs, a Reagan Cold War time line, and a DVD which contains over 200 declassified documents from both US and Soviet sides.
